### Whole School, Whole Community, Whole Child Model Focus

Join SHAPE America as we present our second Professional Learning Institute at the Maria Saucedo Scholastic Academy in Chicago this February.

This one-day event, held in conjunction with SHAPE America's Midwest District, will examine how schools that embrace the WSCC model can see benefits to their community both academically and in social-emotional benefits.

The day will feature an inside look at the amazing academic program at the Maria Saucedo Scholastic Academy, as well as breakout sessions designed for members of the health and physical education community.
